1. Software Developer (Windows App developer)

Location : Saket, Delhi

Website : www.primeos.in

What We Do :

We have developed "**PrimeOS**" an Android x86 based OS for PCs/Laptops which gives a complete desktop experience similar to Windows or MacOS with access to millions of Android apps. It is designed by us to bring you best of both worlds - a complete fusion of Android and PC.

For Installation of PrimeOS in laptops running Windows, we have made a "**System installer**" application compatible with windows 7,8,10 which will be used to set up and install PrimeOS onto a device (Laptops/Pc) in any existing partition(drives) chosen by user supporting both Uefi and legacy mode.

Our mission is to liberate the power of Android and empower everyone with its productivity.

Minimum qualifications :c

- Pursuing Bachelor's degree in Computer Science, Statistics/Mathematics, related field or equivalent practical experience
- Programming experience in c#, .Net framework, JavaScript
- Experience with building package and making installer
- Experience in working on Visual Studio
- Experience with testing on Virtual environment (Vmware/ Vbox)
- Looking for Windows Application Developer proficient in C sharp coding with basic .NET knowledge

Responsibilities :

- Understanding existing code of "**System installer**" written mostly in Csharp, javascript and modify it to resolve existing bugs during installation of secondary OS for dual booting with windows
- Design, develop, test, deploy, maintain and improve software
- Manage individual project priorities, deadlines and deliverables
